Select an article on the TOC screen and click on it

When you click on an article subject or page, the system takes you directly to the article.

IF YOU WANT TO READ THE *WHOLE* ISSUE, JUST PAGE THROUGH IT BY CLICKING ON THE ARROWS AT THE TOP OF THE SCREEN.

Search Back Issues of PS.

YOU HAVE *TWO WAYS* TO SEE BACK ISSUES.

1999

2000

2001

ONE: CLICK ON <u>ARCHIVE OF PREVIOUS ISSUES</u> CLICK HERE TO READ ENTIRE ISSUES FROM *1999, 2000* AND *2001...*

...AND *TWO:* LINKS TO INDEXES FOR *1990-1998, 1999* AND *2000* ARE AT THE BOTTOM OF THE WEB PAGE.

You can page through the index using the arrows at the top of the screen or you can save time by using the letters on the left side of the screen.
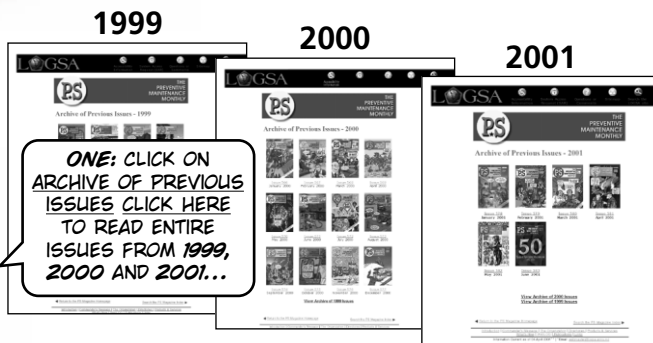

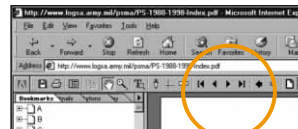

Just click on the first letter of the subject you need and you will get the first article that starts with that letter. Then page through the listing until you find the article you need.

IF YOU *STILL* DON'T FIND WHAT YOU NEED, THERE *ARE* OTHER WAYS TO SEARCH FOR AN ITEM.

FOR EXAMPLE, YOU MAY LOOK FOR A BLACK HAWK ARTICLE UNDER *"B"* AND FIND NOTHING.

AN ALTERNATIVE WOULD BE TO LOOK UNDER *"A"* FOR AIRCRAFT, UH-60, OR BLACK HAWK.

Let Your Server Help

Your server should have a search engine that allows you to search on-line documents. The Acrobat plug-in uses an icon of binoculars to activate its search engine. Click on the icon and type in what you want to search for. The system will bring up the first article about the subject. If that's not what you want, click on the binoculars icon to get the next article that contains your typed-in words.
